

Jolly Boys Outing - Sheffield - 6th. October 2016

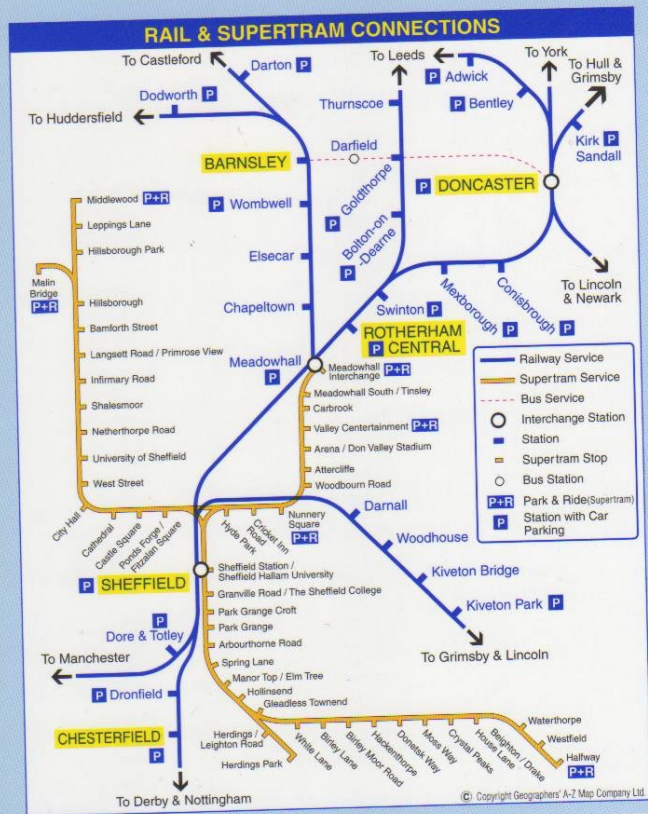

Recce - 14th. July 2016

In Sheffield in the early days of CAMRA hand pumped stouts, milds and strong bitter were virtually impossible to find. The City's micros have made this possible. Given that all of this experimentation and innovation has taken place when beer sales in total in Britain have been in decline, the drinkers of Sheffield can count themselves very fortunate that the range, choice and diversity of beers on offer to them from local brewers has never been greater.

David Wickett - Owner of Kelham Island Brewery and the Fat Cat pub.
