Walk from station to Spoons.

From station to Spoons. Coming from Birmingham down and cross under railway onto other side. There is building work between the platform from Leamington and the station building,; just walk round the outside of the fencing then down Station Road and turn right into Coventry Street. At the end bear slightly left and at the next junction with turn right into Priory Road (a one way street with traffic coming down the hill) at the top cross the street which by the has changed its name to Northgate and at the next junction cross The Butts and the follow the pavement round into Northgate Street at the end turn right into Old Square and in 70m on the left is Market Square with Spoons on the left.

Or cross Priory Road and ahead into Smith Street continue up this street passing the Roebuck Inn on the right at the top cross The Butts and straight ahead into Jury Street. Turn right into Church Street and at the top by the Church ahead into Old Square and as above.

If you want a bus then the X17 from the bottom of Station Road and right for 30m on the hour and half hour. BEWARE it is counter intuitive the bus goes from the same side of the road as the station and makes a loop round outer Warwick back to the bus station on the other side of the hill.

The train times being fixed nicely miss the bus connections and leave you with a 20 minute wait.
